

# **INTERMEDIATE TECHNICAL DESIGNER**

**FULL-TIME | DETROIT, MICHIGAN**

## **JOB DESCRIPTION**

The Intermediate Technical Designer can work on their own with minimal supervision and direction from senior technical staff. This individual has the capacity to lead smaller projects toward the intended design and documentation goals with advice from senior technical staff. This individual possesses a passion to engage in the architectural creative and documentation process, a curiosity to explore innovative and practical technical design solutions and an eagerness to learn and grow through collaborative efforts with a high degree of initiative. This individual has the ability to work with other disciplines and interpret/coordinate with their goals, including consultant coordination.

## **WORK EXPERIENCE REQUIREMENTS**

- 4-12+ years of experience working in an architectural office or related industry.
- Experience working with inter-office project teams on construction documentation.
- Experience coordinating with consultants, contractors, fabricators, and regulatory agencies to meet overall project objectives.
- Demonstrated ability to complete quality construction documents on fast-paced projects.
- Understanding of Building Codes and accessibility requirements (ADA).
- Strong written, verbal and graphic communication skills.
- Capacity to mentor and direct work of Junior Technical Design team members.
- Must be a motivated self-starter with the ability to problem solve both individually and as a part of a project team.
- Has a working knowledge of construction techniques and building materials. Strong organizational skills and the ability to work on multiple projects at the same time.
- Has had some exposure to the Construction Administration process thru Bidding, RFI's, Submittals, Field Visits and Punchlists.

## **EDUCATION AND PROFESSIONAL REQUIREMENTS**

- Minimum Bachelor of Science Degree in Architecture from an accredited institution, or equivalent.
- Actively pursuing thru NCARB, IDP credits required to qualify for taking the Architectural Registration Examination. Likely in the process of completing the ARE.
- Advanced proficiency in Microsoft Office, AutoCAD, REVIT and Adobe Creative Suite (latest versions) in completing architectural construction documentation.
- Computational Design Experience preferred (Dynamo/Grasshopper).
- Involvement in community and industry organizations and activities preferred.
- LEED Accreditation preferred or working toward that goal.
